Company Overview

Sirona Biochem is a cosmetic ingredient and drug discovery company with a proprietary platform technology. Sirona specializes in stabilizing carbohydrate molecules with the goal of improving efficacy and safety. New compounds are patented for maximum revenue potential.

Sirona's compounds are licensed to leading companies around the world in return for licensing fees, milestone fees and ongoing royalty payments. Sirona's laboratory, TFChem (located in France) is the recipient of multiple French scientific awards and European Union and French government grants.

Proprietary Platform Technology

Stabilizing carbohydrates for improved safety and efficacy
